Fostering Opportunities Towards Slovak Excellence
in Advanced Control for Smart Industries

FrontSeat is on a mission to uplift **The Slovak University of Technology in Bratislava (STUBA)** scientific and academic stature, transforming it into an institution known for top-tier education, innovative research, and dynamic innovation in the field of advanced automatic control.

Through our partnership with **Ruhr University Bochum, Germany (RUB)** and **University of Pisa, Italy (UNIFI)**, our goal is to:

- strengthen international research collaboration,
- conduct in-depth research on advanced automatic control systems,
- foster academic and industrial network,
- attract and cultivate talented young/senior researchers and project managers,
- implement and disseminate our research outcomes effectively.

Upcoming events

Academia Meets Industry #2

June 15-16, 2023

Patince, Slovakia (Wellness Hotel Patince)

FrontSeat Summer School on Embedded Optimal Control

FrontSeat Summer School on Embedded Optimal Control

5-DAY SUMMER SCHOOL ON EMBEDDED OPTIMAL CONTROL - **FREE REGISTRATION!**

📍 Location: Slovak University of Technology in Bratislava

📅 Date: 11-15 September 2023

Registration deadline: 30 June 2023

Unlock your potential with our immersive learning experience designed to equip you with both theoretical insights and practical know-how in advanced methods for embedded optimal control.

WHAT WILL YOU GAIN?

- **Mastery** over cutting-edge approaches to optimal control problems.
- **Skills** in real-time model predictive control design.
- **Insight** into data-driven near-optimal alternatives using machine learning.
- **Hands-on experience** with implementation on embedded computing hardware.

COURSE HIGHLIGHTS

- Engaging lectures complemented by intensive **computer exercises**.
- Access to **microcontroller-based pocket laboratories** for various control experiments.
- The freedom to select your **own application problem and hardware platform**.
- A chance to present your results and receive **feedback** in real-time.
- A special lecture to enhance your **presentation skills**.
