

Newsletter

The project **FrontSeat** aims at increasing the research and academic prospects of the **Slovak University of Technology in Bratislava** (STUBA), and at initiating the evolution of STUBA into a modern, reputed excellent institution that performs high-quality research in advanced automatic control, educates top-quality scholars and industrial practitioners, and is successful in active dissemination and exploitation of its research and innovation efforts.

For this purpose, STUBA teams up with two renowned research groups in automatic control from **Ruhr University Bochum** (Germany) and the **University of Pisa** (Italy).

Please expect to be informed and inspired by our updates, which will feature our recent achievements, ongoing initiatives, and upcoming projects.

released twice a year in **April** and **October**
